AUTOPSY DISCLOSES TRUE YELLOW PEVER.

A post-mortem examination of the body of one of the suspected yellow-fever victime was held at 12 o'clock to-day by the physicians composing the State and city boards of health, and after a consultation they sent out this verdict:

"Autopsy discloses existence of yellow fever. Findings positive." It was also at nounced that there had

been thirteen cases and six deaths, but that they could al! be traced to one source confined to the Italian district on Charles street, where these families live huddled up in close quarters and in filth, The men work on Central American ba
